ADDITIVE CHEMISTRY SIMPLIFIED

FOR

uPVC WINDOW PROFILE

About Silvin

Silvin Additives Pvt. Ltd. is a leading manufacturer of lead-free additive solutions for the PVC and CPVC piping industry. With over three decades of expertise, Silvin has earned the trust of manufacturers across India and 10+ global markets.

Its flagship innovation, Super1Pack, simplifies additive chemistry by combining multiple additives into a single, ready-to-use pack—ensuring consistent quality, smoother processing, and hassle-free inventory management. This is supported by a state-of-the-art R&D and manufacturing facility in Gujarat, powered by SAP and Salesforce-enabled operations.

Building on this expertise, Silvin now offers OnePack and Super1Pack solutions for the uPVC window profile industry. Developed in-house, these formulations provide optimal thermal stability, structural strength, and uniform surface quality for demanding outdoor applications—while simplifying inventory and delivering practical, on-site technical support tailored to production realities.

Why Silvin SUPER1PACK?

**SUPER SAVER ON
TIME & LABOUR**

**NO SURPRISE
IN PRICES**

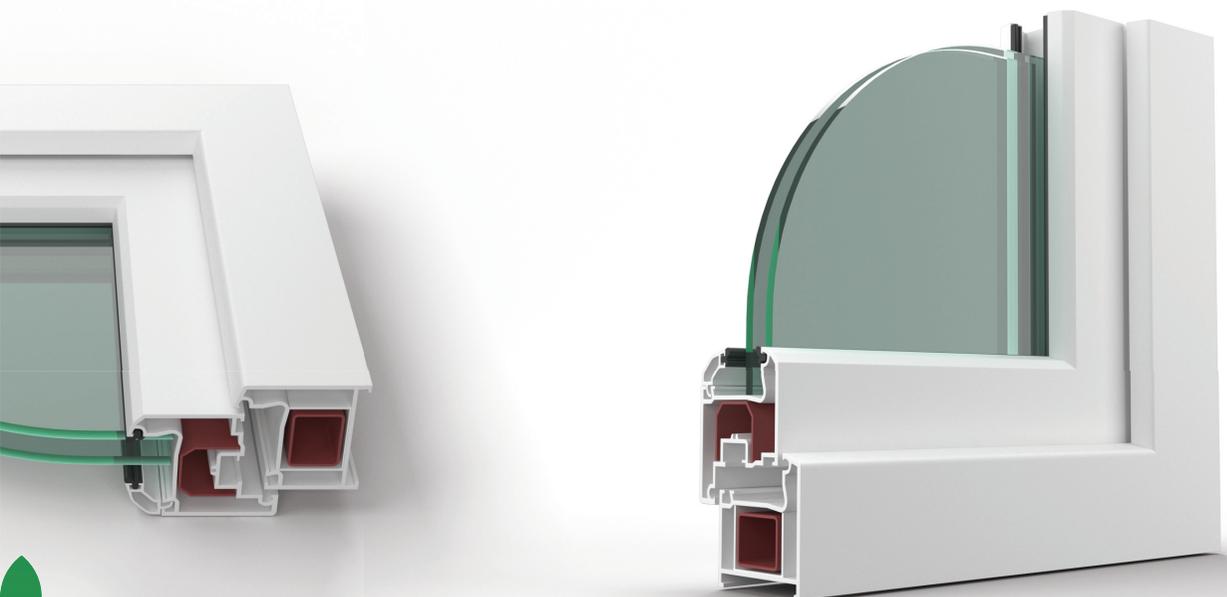

**STRATEGIC SOURCING,
SCALABLE PRODUCTION**

**ON TIME
DELIVERY**

**TECHNICAL ASSISTANCE
FOR PRE & POST ORDERS**

Advantages of Silvin Super1Pack for Window Profiles

Flawless Surface & Gloss:

Ensures smooth, streak-free, and uniform finish for premium-looking window sections.

Enhanced Impact & Dimensional Strength:

Optimised modifiers deliver tough, warp-resistant profiles suitable for handling and installation.

Consistent Whiteness & Colour Stability:

Maintains bright white colour and resists yellowing, even after prolonged exposure to sunlight.

Reliable Extrusion Performance:

Balanced formulation prevents die build-up, ensures uniform wall thickness, and simplifies processing of complex cross-sections.

Product Range and Dosage Table

For every 100kg of PVC Resin

Grade	Super1Pack Dosage (kg)	CaCO ₃ (kg)	TiO ₂ (kg)	Impact Modifiers (kg)	Processing Aid (kg)
WP 7899 WT	3.5	8-10	7-8	5-5.5	0.8-1
WP 7899 IMP	9	8-10	7-8	Included in Super1Pack	

Note: Customised formulations can be developed to meet specific processing and product requirements.

L*a*b* values:

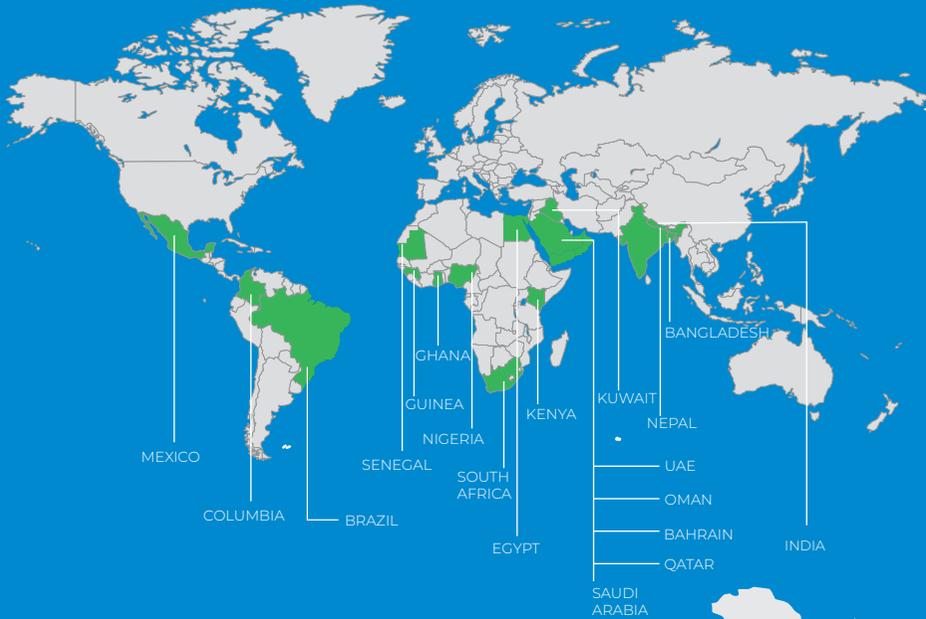

Grade	L*	a*	b*
WP 7899 WT	95.87	-0.89	1.61
WP 7899 IMP			

Note: These values can be achieved only if the recommended additive make, dosage and formulation are followed precisely. Any deviation may affect colour, brightness and profile quality.

Sales Network:

Countries where Silvin has established its global network

Our brand has a presence across **25 states in India** and over **10 countries worldwide**.
